DESCRIPTION OF ERUPTION

CONDITIONS SURROUNDING MT. VESUVIUS.

Story Told by Associate Editor of Century Magazine—Nothing So Impressive Since Chicago Fire.

Naples, April 12.—A graphic description of the conditions surrounding Mount Vesuvius has been written for the Associated Press by Robert Underwood Johnson, associate editor of the Century Magazine.

Since the Chicago fire, he says, he has seen nothing so terribly impressive. Twenty years will not repair the damage, including the destruction of four whole villages. With a change of wind, or a slightly greater propulsion of the seismic force, the same fate might extend to other segments of the circle of which Vesuvius is the center. The party caught a train from Torre Annunziata, three miles this side of Pompeii and two miles from the southern end of the wedge of lava which destroyed Bosco Trecase.

"When we had a magnificent view of the eruption eight miles away," he writes, "rising at an angle of 60 degrees the vast mass of tumult around us was beautifully accentuated by the column shifting momentarily into new forms and drifting south in low black clouds of ashes and cinders, reaching Capri. At Torre Del Greco we ran under this terrifying pall, apparently a hundred feet above, the solidity of which was soon revealed by the moonlight. The torches of the railway guards added to the effect, but greatly relieved the sulphurous darkness.

"We reached Torre Annunziata at three in the morning. There was little suggestion of disaster as we trudged through the sleeping town to the lava, two miles away. The brilliant moon gave us a superb view of the volcano, a gray-brown mass rising, expanding and curling in with a profile like a monstrous cyclopean face. But nothing in mythology gives a suggestion of the fascination of this awful force, presenting the sublime beauty above, but in its descent filled with the mysterious malignance of God's underworld.

"We reached the lava at a picturesque, cypress-planted cemetery on the northern boundary of Torre Annunziata. It was as if the dead had effectually cried out to arrest the crushing river of flame which pitilessly engulfed the statue of St. Anne with which the people of Boscoreale tried to stay it, as at Catania, the veil of St. Agathe is said to have stayed a similar stream from Mount Etna.

"We climbed upon the lava. It was cool above, but still alive with fire below. At dawn we saw north of what was left of Bosco Trecase, a great square stone church and a few houses inland and a sea of dull brown lava. North and east rose a thousand patches of blue smoke, like swamp miasma. All was a dull and desolate slag, nowhere the familiar serpentine forms of the old lava streams. In terrible contrast with the volcanic evidences were strong cypresses and blooming camellias in a neighboring cemetery. After sunrise the great beauty of the scene was revealed. The column now seemed higher and more massive, rising three times the height of Vesuvius. Each portion had a concentric motion and new aspects. The south edges floating toward the sea showed exquisite curved surfaces, due to the upper moving current. It was like the decoration of the side of a Greek sarcophagus. As a yellow dust hangs over Naples and hides the volcano, I count myself fortunate to have seen all day from leeward this spectacle of changing, undiminishing beauty.

"I left Pompeii in a car, expecting to strike the edge of the lava. What was my surprise to find no new lava at San Giuseppe. Four towns here were destroyed in different ways—by rain, cinders and ashes, which could not be skirted, for they lay everywhere in a mass which had broken nearly every roof within the area of thirty miles by ten. From the lava, which was moving several feet a minute, we had no difficulty in escaping.

"At Bosco Trecase the carbinlery drove the people before the fiery avalanche, but the flimsily built houses were no protection against the blizzards of cinders and ashes, tasking the roofs of strongly built walls all Saturday. The wedge east of the volcano thus destroyed extends ten miles at least, with a width of twenty or thirty miles.

"Fancy a rich and thickly populated country of vineyards lying under three to six inches of ashes and cinders, while above, to the west, the volcan in full activity is distributing to the outer edges of the circle the same fate, and you will get an idea of the desolate impression of the scene—a tragedy collossal and heartrending.

"Two miles below San Giuseppe we struck cinders which the soldiers were shoveling, making a narrow road for the refugees. Our wagon driver begged off from completing his contract to take us to San Giuseppe. We had not the heart to insist, so the rest of the journey to the railway at Palma, eight miles, was made laboriously on foot for three hours through sliding cinders. In many places temporary shelters had been built by the roadside, like children's playhouses. Here women were huddled with their bedding, awaiting the coming of supplies which the army had begun to distribute. The men were largely occupied with shoveling cinders from the roofs and floors.

"Many two wheeled carts loaded with salvage and drawn by donkeys or pushed by peasants were making their way along, the women with bundles on their heads or carrying poultry. In the square of San Giuseppe was an encampment of soldiers, with low tents. Near a destroyed church, in coarse yellow shrouds, were the bodies of thirty-three of the 165 persons who had lost their lives. Peasants were sad, but uncomplaining; in fact, for so excitable a people they were wonderfully calm.

"At Palma we succeeded in catching a train for Naples."

REASSURING NEWS

But People of Naples Cannot Realize Conditions are Actually Better.

Naples, April 12.—While the news from Vesuvius to day is reassuring, conditions here in Naples are such as to make it difficult to realize that conditions are actually better. The wind is carrying the ashes in this direction. Toward evening the fall of ashes and cinders here was worse than at any time since the eruption began.

The scenic effects vary from hour to hour. Now, in the north, the sky is of a chocolate color, lowering and heavy, under which men and women with their hair and clothing covered with ashes move about like gray ghosts. Fort San Martino, as it towers above the town, can only just be seen, while Castle Dellovo is boldly marked in the light, seeming like silver against the brown sky.

To the south beyond the smoke zone lies smiling, sunny Posilipe and it pepinsula, while far away glistens the sea a deep blue, on which islands seem to float in the glow of the setting sun. Adding to the strange picture, one of the French men-of-war, which arrived in the bay to day, is so placed as to be half in the glow and half obscured by the belt of falling ashes. From the observatory on Mt. Vesuvius, where Director Matteucci is continuing his work in behalf of science and humanity, the scene is one of great impressiveness. To reach the observatory one must walk miles over hardened but hot lava covered with sand until he comes to a point whence nothing can be seen but vast, gray reaches. In all this lonely waste there is no sign of life or vegetation and no sound is heard except the low mutterings of the volcano. One seems almost impelled to scream aloud to break the horrible stillness of a land seemingly forgotten by God and man.

Every day that passes gives new evidence of the magnitude of the cattastrophe. To day's visit of King Victor Emmanuel to Ottajano revealed new tragedies. At a certain point his majesty was obliged to abandon his motor car and went forward on horseback amid constant dangers, his horse floundering through four feet of ashes, stumbling into holes, blinded by the fall of large cinders and a target for falling basaltic masses. In the presence of the king 129 more bodies were extricated from the ruins, while ashes and red sand fell as though determined not to relinquish their victims. The dead at Ottajano are said to number 550.

There have been a large number of robberies of deserted houses in spite of the efforts of the authorities to protect property. In the excited condition of the populace there is some difficulty in preserving order. It is estimated that 5,000 houses have been destroyed or rendered uninhabitable.

KNEW OLD TRAINER

Chicago, April 12.—Two old friends met at Ringling Bros.' circus Thursday afternoon after a separation of thirteen years, and the recognition was mutual, to the astonishment of hundreds who witnessed the meeting. One of the friends was John Kelly, a farmer from McLean county, who was witnessing the show. The other was Nora, one of the performing elephants.

Kelly wandered into the menagerie and was looking at the animals, when Nora blew a shrill blast of delight from her trunk as he came near. Her trunk reached out and seized Kelly by the shoulder, while the spectators shrank back, expecting to see the man killed.

Kelly was employed as an animal keeper by the Ringlings thirteen years ago, and he and the elephant occupied the same sleeping quarters several seasons.

MINNEAPOLIS TRAGEDY.

Minneapolis, Minn., April 12.—Herman Koenig of this city is dead, and Mrs. S. E. Bootheman, supposed to reside in Ironwood, Mich., is dying as a result of gunshot wounds. Koenig entered the woman's apartment and the tragedy followed the quarrel.

PRIZE FIGHT AT PEORIA.

Peoria, April 12.—Jack Dougherty of Milwaukee knocked out Barney Furrey of Cincinnati in to the third round to night.

REACH LIMIT OF NEGOTIATIONS

OPERATORS AND MINERS YET FAR APART

Anthracite Mine Owners Offered Choice of Two Propositions by Employes—Official Answer to be Made by Letter.

New York, April 12.—At a meeting of the sub-committees of anthracite mine workers and operators, the employes offered the mine owners a choice of two propositions in their favor to come to an amicable agreement, and the employers made an informal reply in which they intimated that they are not likely to accept either offer. The operators will make official answer to the miners' latest proposition by letter and there will be no further meetings until something develops. While there is still hope that a peaceful solution can be found, the meeting to day did not bring the contending parties closer together; in fact, they appear almost to have reached the limit of the negotiations. If the operators should decline to entertain either proposition submitted by the miners to day it is probable a convention of miners will be called at which the delegates will declare a strike.

Briefly stated, the offer made by Mitchell to day was a re-submission of the miners' original demands with two amendments, and in case they are not accepted he proposes that the whole controversy be placed before a strike commission. In one of the amendments to the original demands Mitchell drops the request for recognition of the union and provides that the proposed agreement be made between the operators and anthracite mine workers, instead of the United Mine Workers of America. The other amendment provides that only employes who are willing shall be assessed a certain sum each month to defray the expenses of carrying out the proposed check off agreement, instead of the union and non-union men being called upon to contribute. If the operators do not accept the original demands as amended the miners propose that they (the original demands as amended) and the operators' first proposition, which provides for the renewal for three years of the award of the anthracite strike commission, be referred for arbitration to a strike commission. Thus the miners drop their second offer which provided for arbitration by a conciliation board, and ignore the operators' second proposition, with the exception of the strike feature, which they accept.

After Mitchell, as chairman of the miners' sub-committee, had finished reading the answer, the operators withdrew and discussed the communication for about ten minutes. Upon their return President Baer, as president of the operators' committee, made their reply declining the miners' proposition. An informal talk followed, during which it was agreed that if any further meeting of the joint committee was desired by the miners arrangements could be made by Baer, and after the meeting Mitchell confirmed the interpretation that the first amendment to his original demands eliminated the request for recognition of his union. Technically, Mitchell and his colleagues are not appearing before the operators as officers of the United Mine Workers of America, but as representatives of the anthracite mine workers. This was also their status before the strike commission in 190-03.

The general scale committee of the miners held a brief session this afternoon and after adjournment left for home to await developments.

WORKERS DISAPPOINTED.

Philadelphia, April 12.—Reports from all sections of the anthracite coal field are to the effect that the mine workers are greatly disappointed at what they regard as a virtual suspension of negotiations between the operators' and miners' representatives in New York. The belief is generally expressed that President Baer's brief answer to the amended proposition offered by Mitchell leaves small hope for amicable settlement of the questions at issue. There is no change in the general situation throughout the region.

IOWA MINERS.

Des Moines, Iowa, April 12.—To day's session of the miners and operators conference was given up to a discussion of minor features of the disagreement and several were disposed of. Enough progress has been made to warrant the members of the conference saying that the wage scale would in all probability be completed and for the mines to resume operations in May.

CHIEFS OF POLICE.

Hot Springs, Ark., April 12.—The International Association of Chiefs of Police elected the following officers to day: President, Maj. Richard Sylvester, Washington, D. C.; secretary and treasurer, Harvey O. Casey, Grand Rapids, Mich.

SEVEN TORNADOES.

Topeka, Kan., April 12.—At least seven tornadoes were seen east and northeast of Great Bend, Barton county. Little damage is reported.

STOLE DRY GOODS

Sensation Caused at Sioux City by Arrest of Prominent People.

Sioux City, Iowa, April 12.—A sensation in church circles was caused here by numerous arrests of alleged conspirators on a charge of systematically robbing a local dry good establishment. C. C. Wand, a graduate of the state university and a prominent church worker, attempted suicide by drowning, and is now in a hospital suffering from nervous prostration as a result of the discovery that a warrant for his arrest had been issued.

Charles M. Wade, for four years county coroner and a prominent surgeon, admits having been present at a meeting of the alleged conspirators, but denies having participated in the plot. Two satchels filled with plunder found in his residence, are declared by him to have been left there by members of the gang with knowledge on his part as to the contents thereof.

Mrs. M. J. Merrell, head of the linen department of the store, is alleged to be the ringleader of the conspirators. She is under arrest, as are also J. W. Shild and M. J. Bender, clerks, who are said to have assisted in the thefts and disposal of the plunder. The total amount thus far recovered is valued at $900.

PULLED TRIGGER WITH TOE.

Hermann, Mo., April 12.—Herman Sell, aged 31 years, yesterday afternoon, after shooting his wife, aged 38, with a shotgun, deliberately sat down in a chair, pulled off one shoe and stocking, and, pulling the trigger with his toe, sent a load of shot into his head, dying instantly. The couple had separated six weeks ago, but a reconciliation having been effected they lived together again, apparently in peace and harmony. Yesterday afternoon the quarrel was renewed and while his wife was at the sewing machine, Sell shot her in the back and fired a second shot as she was rushing from the room. Mrs. Sell, though dangerously injured, may recover.

USE PRINTERS' INK

To Increase Attendance at Bible Class.

Knoxville, Tenn., April 12.—That a page "ad" in a Sunday newspaper will increase the attendance of the young men's Bible class has been proven in this city by O. P. Sterling and Rev. W. T. Rodger, pastor of the First Cumberland Presbyterian church. The attendance at the church Bible class was not as large as desired and it was decided to try newspaper advertising to draw a crowd. Last Sunday a novel advertisement appeared and attracted no little attention and comment. All week the "ad" has been getting in its work and its practical results were noticeable Sunday morning. The membership has in the week increased one-third and scores of inquiries have been made to the church officials about the class, and many young men have promised to attend. The officials say that no money over was spent more advantageously by the church.

DEATHS.

Milwaukee, Wis., April 12.—J. H. Van Dyke, Jr., aged 48 years, former president of the Milwaukee Trust company and a director of the First National bank, died at a local hospital to day after an operation.

TELEGRAPH ITEMS

Hannibal, Mo.—The Magnolia mills and grain elevator were sold by the Farmers' and Merchants' bank to William Schweitzer and Edward Morawitz.

Fort Worth, Texas.—J. A. Foster, aged 75 years, living near Sherwood, in Iron county, accidentally killed himself with his gun.

Gainesville, Texas.—A Santa Fe stock train was wrecked four miles north of here and 400 head of cattle were derailed and many so badly hurt that they had to be shot.

Texarkana, Ark.—Harvey Echols was run over by an engine. One arm was cut off and one foot crushed.

Springfield, Mo.—Fred Matney, a railroad man, was shot and probably fatally wounded, following a quarrel.

Brownsville, Texas.—J. D. Cochran of San Antonio, a prominent commercial traveler, committed suicide.

Little Rock, Ark.—William Kimsey of Magnet Cave was drowned in Cave creek.

Guthrie, Okla.—Edward Lacey was killed by the explosion of a shotgun.

OFFICIAL SPEED TRIAL.

Boston, April 12.—The armored cruiser Washington successfully completed the official speed trial to day, averaging 22.27 knots per hour. The contract called for 22 knots.

MOTHER AT TEN YEARS.

Marinette, Wis., April 12.—A very unusual case of youthful development came to light to day when a child was born to a 10-year-old girl, the father being 12 years old.

FORAKER TALKS ON RATE BILL

CONSUMED TIME OF SENATE YESTERDAY

Speech in House by Cockran on Subject of "General Debate"—Makes Defense of Hepburn Rate Bill—Other News.

Washington, April 12.—After a brief speech by Latimer in support of the house railroad rate bill, Foraker to day took the floor on that measure and consumed practically all the remainder of the day's session of the senate. He spent some time in discussing some amendments he has suggested to the bill and then entered upon consideration of the entire question of railroad rate legislation, urging again the unconstitutionality of the pending bill from various points of view. He was frequently interrupted by other senators. Lodge spoke briefly in support of the practice of granting lower rates on goods intended for export than on those used in domestic consumption.

HOUSE.

The feature of to day's proceedings in the house was a speech by Cockran of New York, who was given an hour to elucidate the subject of "general debate" on appropriation bills. Cockran, after a short discussion of the fiction of "general debate" and failure of members to attend sittings of the house while subjects covering the widest possible latitude were being illuminated, launched into a defense of the Hepburn rate bill and the high position taken by the house not only in the exceptional character of the legislation, but in the dignified way in which the bill passed the house. In this connection he ridiculed the constitutional debaters in the senate.

Increased pay for letter carriers, a subject which has been a fruitful source of impassioned eloquence for a number of years, also gave partisans of these men an opportunity to put themselves again on record. Considerable progress was made on the postoffice appropriation bill, eighteen of the twenty-nine pages having been completed. But few amendments were made and these not changing the amount of appropriations to any considerable extent.

INVITED TO MICHIGAN.

The president to day was invited to be present at the ceremonies incident to the semi-centennial celebration of the founding of the Michigan agricultural college at Lansing. The invitation was extended by Governor Warner, Representative Smith and Deputy Food Commissioner Colon Lillie of Michigan. The president could not definitely say to day whether he would accept or not, but he held out the hope to his callers that he might.

CONFER WITH PRESIDENT.

Senators Allison and Dolliver of Iowa had a conference with the president to night at the white house regarding the railroad rate bill. Neither of the senators would discuss the talk they had with the president, beyond saying there was "a merely incidental discussion of the rate bill situation."

BACKING TURKEY

London, April 12.—The Constantinople correspondent of the Express says Germany is using diplomatic influence there to encourage Turkey to resist Great Britain in the dispute about the occupation of Tabah, in Sinai peninsula. The correspondent says he is informed authoritatively that the support the sultan is receiving from Berlin accounts for his obstinacy in the face of the clear declaration by the British government.

LINCOLN MINES SOLD.

Lincoln, Ill., April 12.—The three Lincoln coal mines have been sold to an eastern syndicate for $550,000 and the money for the properties will be paid over within a few days. There is no doubt but that the deal will be consummated by next Saturday night, as the option on the mines held by the eastern capitalists expires on the 15th.

The new owners of the Lincoln mines are eastern capitalists, comprising a syndicate that has recently purchased a number of other valuable mines in Illinois. It is understood that the purchase money is furnished by Standard Oil company interests. According to reports the three mines will be conducted under one head with Lincoln parties in charge.

WITTE HAS BEST OF FIGHT.

St. Petersburg, April 12.—Appearances indicate that Witte is having the best of the fight with Minister of the Interior Durnovo and the downfall of the latter is only a question of a few days.

TRAMPS KILLED IN WRECK.

Springfield, Mo., April 12.—An extra fast freight train, westbound, on the 'Frisco was wrecked two miles west of Bois D'Arc at 8 o'clock last night. Two tramps stealing a ride were caught in the wreckage. It is believed they were crushed to death. None of the trainmen, according to a telephone message received here, was injured.

NAME TICKET

Indiana Republicans Choose Candidates for State Offices.

Indianapolis, Ind., April 12.—The Republican state convention to day nominated a complete state ticket with exception of governor. The nominations follow:

Fred A. Sims of Frankfort, for secretary of state; James Gingham of Muncie, for attorney general; James H. Jordan, for judge of the supreme court; Joseph Stubbs of Indianapolis, for statistician; John Billheimer, for auditor; Oscar Hadley of Plainfield, for treasurer; Ed Fitzpatrick of Portland, for clerk of the supreme court; Fassett A. Cotton, for superintendent of public instruction.

TWO KILLED; TWENTY WOUNDED.

Warsaw, Russian-Poland, April 12.—The sectarian movement started by a number of young Catholic clergymen calling themselves Mariavits is rapidly increasing in the country, especially among the peasants. The sectarians yesterday seized a church at Blonie, in the province of Warsaw, but it was recaptured by 6,000 Catholics. During the fight two men were killed and twenty were wounded. Greater disturbances are expected.

PLANS BIG BALLOON TRIP.

Chicago, April 12.—William Mettery, the aeronaut who narrowly escaped death recently in making a descent, now says he will try to make an air line trip to Chicago from New York in a race for a prize of $3,000. He says he has signed a contract with the New York Aero club and will start for New York next Wednesday to begin his flight.

J. N. VERY HAPPY

Glad That People Have Discovered He is Mad

The immortal J. N., it is stated, is perfectly happy in his new quarters at the insane asylum at Upper Sandusky, Ohio, because he is allowed to talk all he wants to. It is reported that when J. N. arrived in the hospital his eyes fairly blazed with excitement and his long arms gesticulated wildly as he told the story of the conflict between the north and south and his efforts to subdue it. The old man at the time was in the receiving room of the hospital, where his measurements, name, age and other data were taken. Suddenly he jumped upon a chair and started off on one of his famous harangues. The other inmates gathered around the old man in wild-eyed amazement and listened attentively while he rambled on with his story.

"Well, I am glad that the people have at last discovered that I am insane. Yes," he continued, "this is an act of Providence. For the past fifteen years I have held that I was not right, but this is the first time I have been in an asylum. But there is no restriction on the speech of the insane, and now that a court has legally declared that the immortal J. N. is not right, I shall take advantage of the fact and talk from morning till night. And when the time's ripe, I'll remove the pressure."

The authorities at the hospital declare that the old man is supremely happy over his incarceration, and seems to believe that he has gained a point by that fact.—Mattoon Morning Star.

REFUSES TO BE SCALPED.

Pendleton, Ore., April 12.—Maj. O. C. Edwards, superintendent of the Umatilla reservation, refuses to be scalped, and in order to make assurance doubly sure sent for a troop of cavalry from Fort Walla Walla. Trouble on Umatilla reservation reached a crisis and preventive measures were taken. Major Edwards says he asked for cavalry to prevent the Indians from invading the stockmen and also to prevent the stockmen from invading the rights of the Indians. Some time ago the Indians petitioned for the removal of Edwards and also threatened him with violence because of alleged bullying and abusive tactics. It is believed he is securing troops for personal protection.

OIL MAGNATES CLAIM IMMUNITY.

St. Louis, April 12.—The final hearing of Attorney General Hadley's ouster suit against the Standard, Waters-Pierce and Republic Oil companies has been set for next Wednesday. The hearing was to have been concluded to day, but was postponed on account of the attorney general's illness. The Waters-Pierce and Republic companies will seek immunity by claiming to be general agents of the Standard, denying that they are parties to any combination in restraint of trade, but merely dispensers of the trust products.

SENT TO PRISON.

New York, April 12.—Recorder Goff to day sentenced Frank Hawkins to the penitentiary for one year. Hawkins, who is an iron worker, was convicted of assaulting Samuel Anderson Feb. 22. Hawkins, with other iron workers, had quit work on one of the Post & McCord contracts and Anderson had been employed to take one of the striker's places. Anderson was met by a crowd of strikers and beaten.

DOWIE WILL NOT GIVE UP

IN WARFARE TO REGAIN CONTROL.

After He Has Taken Proper Legal Steps Will Descend on Zion City and Proclaim Himself Only "First Prophet."

Chicago, April 12.—Dowie will not turn tail and flee to Mexico. He will wage a vigorous legal warfare to regain control of Zion City, and as soon as he considers he has taken the proper preliminary steps, he will descend upon that place and proclaim himself the only and "first apostle." This statement is authorized by Dowie himself and by his lawyers. Notwithstanding this warlike declaration attorneys for both factions held several conferences to day and it is believed they are striving to reach an agreement so as to prevent Zion City's affairs getting into court.

The attorneys for Dowie secured an order from the postal department directing that mail addressed to Dowie be delivered to his apartments in the Auditorium Annex. This they consider a very important strategic move, as a majority of these letters are from members of the church remitting tithes.

WANT MORE LIGHT

Independence, Mo., April 12.—It was decided at the conference of the reorganized Church of Latter Day Saints to day fasting as well as prayer will be observed to beseech the Lord for another revelation which will throw more light upon the revelation of President Joseph Smith, relative to building a sanitarium at Independence. The revelation was recited with much rejoicing and was accepted by the conference and the various controlling bodies of the church, which act made it binding on the church. A revelation clearing up the sanitarium measure is expected Saturday or Sunday.

BETTER MAIL SERVICE NOW

That Request for Two Additional Carriers Has Been Granted—Local Office is Money Maker for Government—Some Facts.

Postmaster Reeve has secured two additional carriers for the local office and the increase in the efficiency of the mail delivery service is already apparent. On Feb. 19 Mr. Reeve was granted one additional carrier and an experiment was made as to the delivery of mail in the business section. To carry out the plan another carrier was made necessary and after a visit of Inspector Gilbert and correspondence with the department Mr. Reeve has received word that the second carrier will be granted. This will give a carrier force at the local office of ten. The new carriers will be Luther Lashmet and Edwin Jackson.

When Inspector Gilbert was in the city Mr. Reeve took him a drive over the city to show him the difficulties encountered in delivering mail in a city where there are so many large lawns and where the houses are situated so far apart. After the trip Mr. Gilbert remarked that he was never in a town where there were so many fine appearing lawns or such a large amount of residence property frontage. He also stated that he never saw so much pavement in a city the size of Jacksonville and was indeed surprised when he found that there were over seventeen miles of street pavement with four miles in prospect. From his drive over the city he was thoroughly convinced of the needs urged by Mr. Reeve and his recommendation was in accord therewith.

It may be of interest in this connection to state that the Jacksonville postoffice is one of the few money making offices that the government has. The net annual income of the local office after all expenses are met runs about $10,000.

The receipts at the stamp window alone average over $125 a day. This is certainly a large figure when one stops to think that this means the putting into circulation of over 7,000 stamps daily and for the office force the sale of anything from one stamp to several hundred.

Jacksonville can certainly be proud of its many paved streets and fine lawns and residences and while many think that such things after all are improvements that can wait until the city grows larger, they are in fact the very things that will make the city develop and are a valuable asset that works toward our progress in many ways that we are unaware of.

G. V. SKINNER INJURED.

While attempting to lead a horse from the stable Wednesday evening G. V. Skinner was thrown against the manger with such force that two ribs were broken. When he untied the horse it jumped back, the bridle broke with the result that Mr. Skinner landed against the manger. Dr. Carl E. Black was called and attended the injured man.

WHY

Jacksonville People Should Take Vinol.

Our well known druggist, Mr. Lee P. Allcott, says, "We do not believe there is a man, woman or child in Jacksonville whom our famous cod liver oil preparation, Vinol, will not benefit at this season of the year.

"We believe there is no need for so many people to drag around run-down, tired out and debilitated, or for old people to remain weak and infirm when we guarantee Vinol will restore health and strength."

Continued Mr. Allcott, "For centuries cod liver oil has been recognized as the grandest of all body-building agents for wasted human strength and vitality, but on account of the heavy, nauseating and system clogging oil, which enveloped its curative properties few could take it with any benefit.

"In Vinol you get in a concentrated form every one of the curative and strength creating elements of cod liver oil actually taken from fresh cods' livers, and without a drop of oil to upset the stomach and retard its work.

"Vinol is not a patent medicine and you know what you are taking, as everything it contains is named on the back label of every bottle.

"Vinol is guaranteed by over two thousand of the leading druggists of the United States to create strength for old people, for the run-down, tired, and debilitated, weak, sickly women and children, and after a severe sickness.

"We ask every person in Jacksonville who have hacking coughs, chronic colds, throat and bronchial troubles to try Vinol on our guarantee. It costs nothing if it fails." Lee P. Allcott, Druggist.

CAUGHT IN THE ACT.

Several merchants detected a woman taking goods from their stores yesterday and were in time to prevent her from getting away with the plunder. It seems strange that in this enlightened day and generation a person would commit such a sin when there is so great danger of apprehension but there are persons who will do it. The woman in question was permitted to go her way unmolested after the goods were recovered but she will not fare so well next time.

A few doses of Chamberlain's Cough Remedy will bring surprising results when a child shows symptoms of croup. There is no cause for alarm when this medicine is in the house as it rarely takes more than three or four doses to bring about a complete cure. It has never failed even in the most severe and dangerous cases, and no home where there are small children can afford to be without it. For sale by all leading druggists.

UNWILLING ENACTMENT

OF SERIO-COMIC DRAMA BY HIGH SCHOOL STUDENTS.

Members of Senior and Junior Classes, Superintendent Furr, Officers and Patrolmen of Police Force are Members of Cast

Students of the local high school went on a rampage, as students sometimes will, Thursday evening, and while there was considerable roaring in the index the final act in the serio comic drama proved an anti-climax. It happened thus:

Members of the junior class of the high school were entertained at the home of Superintendent W. A. Furr Thursday evening and in accordance with tradition an attempt was made by members of the senior class to capture some of the juniors. With their plans well matured they advanced to the number of fifteen toward the Furr home. After sending out a skirmish line and several reconnoitering parties without result a council of war was held. Various plans were discussed for making life miserable for the juniors and finally it was decided to storm the pantry where one of the scouts had discovered some of the refreshments which were to be a part of the evening's program. In attempting to carry out this plan one of the window lights was broken, either by accident or design, and just as the invaders had secured a good quantity of booty they were discovered and scared away.

In order to prevent further onslaughts by the bold seniors it was deemed best to notify the police and Chief Davis and Capt. Kennedy went to the Furr home on West College avenue in Fire Chief LaBoyteaux' buggy. Meanwhile the enemy had withdrawn their lines and fell back from West College avenue to West State street.

The chief and captain decided that students were an elusive quantity to deal with and consequently ordered Patrolman Tuite and Sergeant Murgatroyd to proceed west by State street. The latter came upon the enemy unawares, who broke and ran in all directions. Twelve escaped but the majesty of the law laid its hands upon Weber, Hallowell and McKean, and after a few words they saluted their captors, unbuckled their swords and asked the pleasure of the officers. The right about face order was given by the sergeant and with the chief and captain mounted the procession took up its march to the city bastile. Here in the office of the chief terms of honorable capitulation were discussed. Meanwhile Superintendent Furr arrived on the scene. He felt that the members of the class who had participated in the disturbance were guilty of unbecoming conduct and that their actions deserved censure. He led out rather strong and the boys, who had visions of not getting their diplomas on commencement day began to counter. Weber, who by the way enjoys quite a reputation as an orator and debater, poured forth a plea for clemency in behalf of himself and companions that would have done credit to Demosthenes.

Superintendent Furr, Chief Davis and Captain Kennedy listened with interest to the arguments and when the appeal had been concluded Hallowell whispered to McKean that he believed he could hear the flutter of the wings of the peace dove. Whatever McKean may have thought on the subject is not known, but his countenance never changed and he remained in respectful silence, his look evidencing that he believed all had been said that could be said.

While this scene in this impromptu and enforced drama was being enacted the members of the band who had escaped sent hostages to the Furr home. They came down to Vickery & Merrigan's and secured cakes, cream, etc., and with their arms full of these provisions they returned to the Furr home in time for the refreshment plans to be carried out as originally intended.

Superintendent Furr was exceedingly fair in his treatment of the young men who had been overtaken by the officers. They protested that while they were of the party that went to his home they were not the ones who committed the act of trespass.

Mr. Furr told them plainly that pranks of a similar nature were not unknown among high school students but that action in the premises was carrying things too far.

In fact to make a long story short the boys were released without being arrested and no complaint was filed against any of them. They will doubtless remember their parade with the blue coats and the incident should be a lesson to every student and every class in the schools of the city that student pranks carried too far are amenable to the same punishment as misdemeanors on the part of any other class of citizens. Let us have life and spirit among the students of the various classes and schools but in its exhibition let the limitations of its expression be kept within proper and reasonable bounds.

Superintendent Furr wended his way back home in time to enjoy the remainder of the evening with his guests, the juniors, and with a firm conviction that if Weber speaks as well on graduation day as he did on the occasion of his impromptu effort last night that he will surely make a hit.

WAGON AND CAR COLLIDE.

At the East North street crossing of the street car track a bad accident was narrowly averted Thursday afternoon, when a northbound car collided with a United States express wagon. Car No. 30 approaching North street at a moderate speed in charge of Conductor Ernest Dunston and Motorman Walter Haxton, when the express wagon, driven by John Cassell, enroute to the C. & A. depot, was driven at a rapid rate directly in front of the moving car, which was brought to a sudden standstill, but not before it had knocked the horse to its knees. The bell is said to have been ringing as the car approached the crossing, but Cassell evidently failed to hear it owing to the noise made by the wagon. The only damage was done to the street car, which was scratched to some extent.

Suggestions to Purchasers Of Refrigerators.

In buying a refrigerator, keep the following points in view, every one of which is a prominent feature of every one sold by us.

The preservation of perishable food is the first and most vital point. To obtain this end requires a low temperature and absolutely dry air. These conditions can only be attained by a perfect circulation of air in the refrigerator.

The second vital point in a refrigerator is an economical use of ice. The economical use of ice is of the greatest importance. A good refrigerator will last a lifetime, and how many times its first cost must be expended in ice during that time, and what a saving can be made by having a refrigerator which is an ice saver and not an ice waster. To attain this end the refrigerator must be well made of kiln dried lumber. It must have in addition a lining of non-conducting mineral wool sheathing, which is air-tight and odorless. It must be provided with a drip pipe and trap, so as to exclude the outside air from the ice and allow the drip from the melting ice free exit.

We have received our new line of refrigerators and have them ranging in price from $8 up to $40.

In Society.

The young ladies of the junior class of the high school entertained the boys of the class and the high school faculty at the home of Superintendent and Mrs. Furr Thursday evening. The entertainment feature of the evening was an auction, at which packages prepared by the young ladies were sold to the boys by Miss McCoy, who acted as auctioneer. Each package was labeled, and the contents in every case proved a surprise, causing much merriment. Miss Calfky, the class officer, served as clerk. Refreshments were served and games and music added to the pleasure of the evening.

* * *

The second section of the Ladies' Aid society of the Congregational church held a sociable in the church parlors Thursday evening which was well attended and a most pleasant time was had by all. A musical program consisting of piano, violin and vocal solos was given, which was greatly appreciated. Light refreshments were served during the evening.

* * *

President and Mrs. Harker of the Illinois Woman's college entertained the members of the senior class and heads of departments at the annual dinner given Thursday evening. The occasion was a delightful one for all present and after the elegant menu the guests gathered in the parlors where the evening was spent in a most enjoyable manner, games and music making the hours pass very pleasantly.

PANDORA CLUB SOCIAL.

The Pandora club, the social organization of Miss Mabel Henderson's class of the Christian Sunday school, gave a very successful pie social in the church parlors Thursday evening. The room was very prettily decorated, and presented an attractive appearance, while numberless pies attracted the attention of many patrons. Music was furnished during the evening by the Christian church orchestra. The proceeds of the social are to be devoted toward the fund for a Pandora club window in the new church.

PHILANTHROPIC WORK PLANNED

By Salvation Army—Will Convert Barracks Into Day Nursery Where Mothers Can Leave Their Little Ones—New Quarters Sought.

Working mothers will be relieved of the responsibility of the care of their children while away from home, if the plans of the Salvation Army are carried out. A movement is on foot to convert the present barracks into a day nursery for children whose parents are compelled to work for a living, and some changes in the hall looking to this end are now being made. The Army is seeking new quarters near the square.

The day nursery will be in charge of Mrs. Captain Sparrow and it work will be along the philathropic lines being followed by the Army in late years. Its promoters feel that there must be many women in this city who could attend to necessary work away from home to much better advantage if relieved of the care of their little ones during their working hours, and at the same time the children would be receiving the best of care. Bathing facilities are among the improvements being made in the hall, and other similar conveniences will be added. It is expected that the nursery will be opened about the first of May.

DUAL MEET NIT.

"A dual athletic meet has been arranged with the Jacksonville high school track team by John L. Scott, faculty manager of the track team of the Springfield high school. The meet as arranged is to take place in Jacksonville on Saturday, May 26.

"It is likely that an excursion will be run to the place on this date, as many of the pupils have already expressed themselves as desirous of attending."

The above was taken from Thursday's issue of the Springfield Journal. Inquiry at the local high school developed the fact that no such meet has been arranged, although there has been some discussion of the subject.

MEDICAL SOCIETY MEETING.

The regular monthly meeting of the Morgan county Medical society was held in the library building Thursday evening. Two papers, one by Dr. Allen King on "Pleurisy," and one by Dr. J. W. Hairgrove on "Empyema," were read. The subjects were handled in an excellent manner and the discussion that followed was filled with interest. There was a report of the committee on Passavant hospital and a discussion of cases closed the meeting.

ATTENTION MASONS.

Special communication of Jacksonville Lodge No. 570 this evening at 7:30 o'clock. Work in the first degree. Visiting brethren cordially invited.

RAILROAD NEWS NOTES

Harper's Weekly: There is apparently no more attractive field for engineering than the mountains of Switzerland, and the greatest skill and ingenuity have been exercised in the various railways designed to carry tourists to the summits. Recently there has been an entirely new departure from existing practice in a plan proposed for ascending the northwestern side of the Wetterhorn, which rises precipitously to an altitude of 7,700 feet above the sea level. The new scheme consists of a combination of the fundamental principles of the ordinary aerial cableway now so much used in constructive engineering for the transportation of materials, and of the elevated mono-railway, best exampled in the line between Barmen and Elberfeld in Germany. In the latter a car is suspended from a single rail supported by a system of girders while in the new Swiss railway, instead of rail, a stout steel cable will be stretched from station to station, and from this will be suspended by its running gear a car or cage for the passengers. Each car will contain ten passengers, and be of the lightest possible construction.

The line will run from the Grindelwald upper glacier, at about 4,000 feet altitude, up to the Enge station in one lift, a distance of 1,300 feet. The station is of massive masonry and affords an anchorage for the cable. The gradient of the cable for this part of the line is about 80 per cent. This station affords access to a series of fine views and there is a path along the Enge to the departure station of the second section of the line, which extends to a point at an altitude of 7,761 feet, or a lift of 2,300 feet. The motive power is to be electricity at high tension, and a part of the installation is already completed. The summit of the Wetterhorn is 12,150 feet above the sea level, and from the present studies there is apparently no reason why access to it should not be gained by a series of such railways as the two sections already described. Only once before has the mono-rail system been used on a mountain railway, on Vesuvius in 1880, and this method was supplanted when the line was reconstructed.

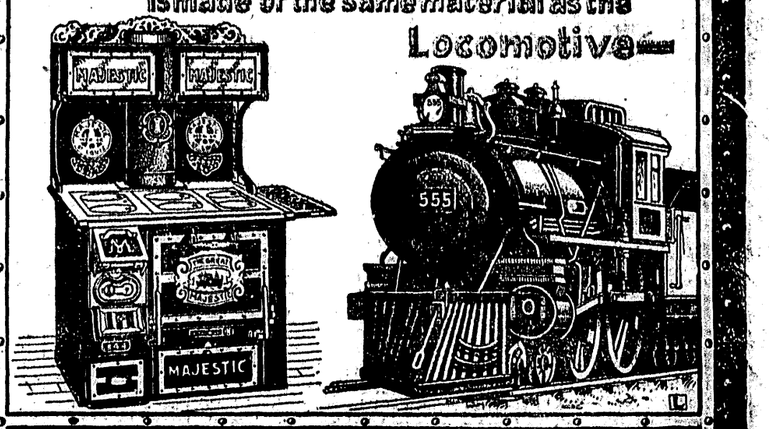
MONTGOMERY & DEPPE

THE MAJESTIC is made of the same material as the Locomotive—



The boiler jacket of a locomotive—exposed to wear, weather and heat—is made of *sheet iron*, because for such purposes sheet iron is more durable than sheet steel. The Majestic Range is made of *sheet iron*—not steel—for exactly the same reason.

It is a long step from locomotives to the range in your kitchen, but the material of which your range is made is of *vital importance in your household economy—less repairs.*

Sheet iron costs twice as much as sheet steel, but steel *will* rust, and cracks in your cooking apparatus means loss of heat, waste of fuel, and in a few years the range is ready for the junk heap.

In the body of all Majestic Ranges we now use **Majestic Old Style Charcoal Iron.** The top and framework are made of **Majestic Malleable Iron**—the iron that never breaks, cracks or warps, and is so thin that you can do all your cooking without removing the lids.

The locomotive is compelled to stand up under severe tests—good looks will not draw a train of cars. A range built to endure and stand every test is the most economical range that you can buy, *and that range is*

SPRINGFIELD PRESBYTERY

H. D. Trickey Granted License to Preach—Rev. Jos. E. Foster New Moderator—Rev. R.F. Cressey Elected Commissioner to General Assembly.

The Springfield Presbytery met at Winchester Tuesday evening in its stated spring session, and transacted routine business. Some interesting reports were heard, and H. D. Trickey, of Winchester, was granted a license to preach.

The session of the Presbytery opened with a sermon by Rev. W. L. Tarbet, of Divernon, the last moderator present. Rev. Joseph E. Foster, of the Pisgah Presbyterian church, of Orleans, was elected moderator, and Rev. Robert Carson, of Pawnee, temporary clerk.

The annual reports of the churches in the Presbytery were heard, and showed a healthful condition existed in the church bodies, with marked advances numerically, financially and spiritually. Rev. Roger F. Cressey, of the Jordan Street Presbyterian church, of this city, was elected ministerial commissioner to the general assembly, and Dr. C. M. Brown was elected alternate. Mr. Telfer, of Williamsville, was elected lay commissioner, and Andrew M. Brooks, of Springfield, his alternate.

The Presbytery granted a license to preach to H. D. Trickey, of Winchester, who has been serving as assistant pastor for Rev. A. M. Ayers, at Oshkosh, Wis.

Dr. C. M. Brown, of this city, reported as to the progress of the movement to provide a student pastor for the University of Illinois, inaugurated at the meeting of the Presbyterian Synod of Illinois last year, and the movement was strongly endorsed by the Presbytery.

The fall meeting of the Presbytery is to be held at Divernon, where Rec. E. C. Pires, formerly of this city, is pastor.

Westminster church was represented by Dr. C. M. Brown and W. T. Brown; State Street church by Dr. A. B. Morey and Dr. C. C. Cochran; Jordan Street church by Rev. R. F. Cressey and John Day, and Woodson Presbyterian church by Rev. S. A. Glasgow and Elder Colton.

STUBBORN COUGHS.

A cough which lingers on long after every other symptom of a cold has disappeared should have attention as it indicates some throat or lung trouble and may result seriously. Mr. Alexander McMillan, of Maple Ridge, Mich., recommends Chamberlain's Cough Remedy for this trouble. He says: "I used this remedy for a stubborn cough with the best results and I think there is nothing like it. I cannot speak too highly of it." For sale by all leading druggists.

BIDS FOR PRIVILEGES.

Sealed bids for the refreshment privileges at West Side baseball park will be received by the president, E. A. Brennan, at the Pacific hotel up to and including April 14. This privilege includes refreshment stand, grand stand cushions and score cards. The right is reserved to reject any or all bids.

CHICAGO GRAIN LETTER.

Chicago, April 12.—Wheat—Wheat advanced 1⅛c a bushel with scarcely a reaction. There was some damage talk in the southwest, but it seems as though the gain was more the result of the local speculation than any real news in the day's advices. Southwest were moderate buyers, but on the whole the trade was professional. The market was very nervous, running in quick quotations. Bad weather throughout the spring wheat belt caused something of a factor. There is a fair demand for domestic cash wheat, but little or nothing for export.

Corn—Offerings of corn were exceedingly light at the start and there was a scramble on the part of shorts with buying orders which put the price up. Wet weather was also a factor. The May premium was widened over the July. The cash situation in corn is healthy.

Oats—Oats were exceedingly strong particulary the far months. The first hour prices advanced on predictions of rains throughout the belt, which will further delay farmers' work. There is a good domestic and export demand and receipts are quite moderate.

Provisions—Provisions were firm early because of the continued light hog movement. The demand was rather small, however, and selling was credited to the packers. The cash trade was quiet. Estimated 17,000 hogs for to morrow.

STAR COMMISSION CO.

(By Associated Press.)

Chicago, April 12.—The following shows amount of grain received at and shipped from this point:

	Receipts.	Shipments.
Flour, bbls	27,000	16,000
Wheat, bu	13,000	40,000
Corn, bu	121,000	279,000
Oats, bu	159,000	216,000

CHICAGO LIVESTOCK MARKET.

Chicago, April 12.—Cattle—Receipts, 6000. Trade lacked tone, though prices were about steady. Receipts were 6000 and there was just enough demand to take the supply. The outside demand was light and sellers depended chiefly on packers. The quality was poor.

Hogs—Receipts, 16,000. The market to day was the replica of Wednesday's. It opened exactly with the same show of strength indicated by the same speculative buying, and then weakened under the old declination of packers to pay the higher prices. Early values were 5c above yesterday's closing figures, but the late trade was even with latter prices. Speculators paid $6.60 at the start and the bulk ranged from $6.50@6.55. Mixed and butchers, $6.40@6.60; good to choice heavy, $6.15@6.60; rough heavy, $6.15@6.25; light, $6.30@6.55.

Sheep — Receipts, 20,000. Irregularity marked the tone this morning. The tone was rather more than buyers cared for and the market was without activity. Changes, where made, were on the side of breaks. Clipped stuff was weak.

ST. LOUIS LIVESTOCK MARKET.

St. Louis, April 12.—Cattle—Receipts, 4000. The market was steady. Beef steers, $3.25@6.00; stockers and feeders, $2.40@4.40; cows and heifers, $2.10@5.00; Texas steers, $3.70@6.70.

Hogs—Receipts, 5,000. The market was strong. Range, $5.50@6.55.

LIVERPOOL MARKET.

Liverpool, April 12.—Wheat—Spot nominal.

Corn—Spot firm; American mixed new at 4s 3½d; same old, 4s 7d.

NEW YORK MARKET.

New York, April 12.—Wheat—Receipts, 21,000 bu.; exports, 51,000. Spot firm; No. 2 red, 90c asked elevator and 91½c f. o. b. afloat. Options closed 1¼@1⅝c net higher; May, 87⅝.

Corn—Receipts, 41,000 bu. Spot steady; No. 2, 56c nominal elevator and 54½c nominal f. o. b. afloat; No. 2 yellow, 55¼c; No. 2 white, 55⅝c nominal. Options closed with ⅝@⅞ advance; May, 53⅞c.

Oats—Receipts, 101,000 bu. Spot firm; mixed, 37@37½c; white, 38@39c; clipped white, 39@41½c.

FINANCIAL MARKET.

New York, April 12.—To day's money market did not fulfil the promise held out in the violent relapse in rates yesterday, caused by news of heavy engagements of gold for import. With call loans opening at 10 per cent and large amounts loaning near that rate, yesterday's view of the extent of relief afforded by gold engagements was modified, although the money rate ran off later. Considerable relief from the degree of stringency before existing was obvious and there was no sign of pressure of liquidation in the stock market. Closing quotations:

Mone on call was easier, at 4@10 per cent; ruling rate, 5½; closing bid and offered at 4. Time loans firm; all periods at 6 per cent.

Prime paper at 5½@6 per cent.

Exchange strong. Demand at 481.65@484.70; sixty days at 481.75@481.80.

Bar silver at 64⅝.

Now Is the Time

This is the Season of the Year when Catarrh Cannot be Neglected Without Running Dangerous Chances.

Have you inherited weak lungs?
Have members of your family died from consumption?
Will you go the same way?

DR. C. M. COEN.

Have You Catarrh?

Well, here are the symptoms that usually indicate its presence. Check them over, and if you have any of them, DO NOT DELAY, but seek a cure before it is too late.

CATARRH OF THE NOSE—Chilliness, feverishness, passages obstructed watery discharge and latter thick, yellow and tenacious discharge into the throat—headache—foul breath—weak and watery eyes—and sometimes loss of memory.

CATARRH OF THE THROAT—Irritation—sensation of heat and dryness—constant hawking— sore throat and difficult to breathe.

CATARRH OF THE STOMACH—Dizziness, emanciation— hollow cheeks—sleeplessness—bad dreams—despondent—dull, grinding or sharp, short pains in side and stomach—nausea after eating—shortness of breath—and bitter fluid rising in throat.

CATARRH OF THE INTESTINES—Dull grinding pain in bowels—diorrhoea—emanciation—nervousness—and sleeplessness.

CATARRH OF THE LIVER AND KIDNEYS—Skin drawn and yellow—black specks floating on field of vision—weak and dizzy—dull pain in small of back—and constant desire to urinate.

CATARRH OF THE BLADDER—Sharp pains in the lower abdomen and a loss of control over urine—constant desire to urinate—burning sensation when urinating—face drawn and pallid—eyes dull—palms of hands and feet damp and clammy.

PELVIC CATARRH—Constant leucorrhoea—dragging pain in the back and hips, abdomen and thighs—stomach disturbance—skin eruptions—sick headache—female irregularities—and constipation.

Are you sick, weak and discouraged? Are you suffering from the ravages of disease? Are you reapingthe result of neglect or early indiscretion?

Will you continue to suffer? You need not unless you delay too long in seeking a cure.

My method is peculiarly adapted to the following diseases: Catarrh, Bronchitis and Lung Diseases, Rheumatism, Neuraliga, Diseases of the Blood and Skin, Diseases of the Stomach, Liver, Kidneys and Bowels, and all the private diseases of men and women.

Have you a disease of any kind that has proven incurable by the ordinary methods of treatment?

Have you any lingering troublesome conditions that annoy you?

Have you any condition that if neglected will lead to serious and probably fatal results?

If so come to me for consultation and advice. If I find your case incurable I will frankly tell you the facts as I believe them. If you are curable I will gladly advise you free of all charge. Should you desire treatment my terms are no more than you would be willing to pay for a perfect cure.

BEEN TO CALHOUN.

Judge Mehan of Mason City was in Jacksonville Thursday on his way home from Hardin, Calhoun county, where he had been holding court. The judge said he left Hardin on the steamboat, "Grey Eagle," about 4 o'clock in the morning, arriving at Naples at noon in time to catch the local freight, which, fortunately, was behind time. He managed to get to Bluffs soon enough to take the Decatur accommodation for this city, where he had to wait until 5:30 p. m. for and Alton train home. But while you are talking of the fact that there is neither railroad, telegraph nor express office in Calhoun county, don't forget either that lots of the time there is no one in their jail, that court there is almost perfunctory owing to the small amount of litigation, and that the lives of the people flow peacefully along with little to disturb the equanimity and satisfaction of their existence.

MADE LAND COMMISSIONER

Idaho Paper Tells of Appointment of A. C. DeMary to Position of Land Commissioner—Graduate of Illinois College.

A. C. De Mary, of Rupert, Idaho, well known in Jacksonville, where he graduated from Illinois college in 1896, has been appointed United States land commissioner. He succeeds Commissioner Bruce Hodgson and he was named for the position by United States Judge Beatty. The many friends of Mr. De Mary in this city will be pleased to learn of his preferment. In speaking of the appointment the Rupert (Idaho) Record has the following to say:

United States Commissioner Bruce Hodgman, with whom a majority of the homesteaders on the Minidoka tract filed their entries, has resigned the office and United States Judge Beatty has appointed A. C. DeMary to succeed him. Mr DeMary received notice of his appointment last Monday and immediately qualified by filing his oath of office.

All the pending contests that have been set for hearing will be heard by Mr. Hodgman, while the new commissioner will take charge of all new business. Mr. DeMary announces that Ed Hastings, Mr. Hodgman's efficient clerk, will be retained and the office will be located in the room formerly occupied by Mackey & Wheeler.

Mr. Hodgman, when asked to make a statement concerning his retirement, said: "Notwithstanding the crusade that has been waged against me by people who wanted to succeed me, I want it understood that I voluntarily resigned. My resignation was sent to Judge Beatty about the 10th of last month. The judge wrote me a letter, asking me to continue in the office for the present. I insisted upon giving up the office, as I had other business interests that are worth more to me, and Mr. DeMary was appointed. I want to say that Mr. DeMary was in no way connected with the fight that was waged against me."

Mr. DeMary's appointment came as a surprise, even to his closest friends, as no one knew that he was an applicant. Indeed, it was not till a week ago that he made application. His intimate personal acquaintance with Judge Beatty brought him the appointment at once. His selection will give general satisfaction, as, in point of ability and integrity, no man stands higher in this community.

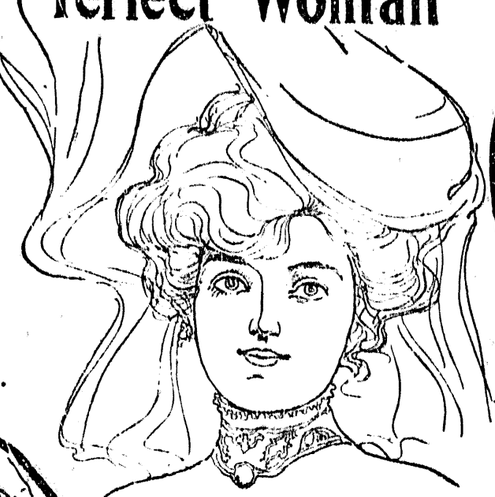
Perfect Woman



You may have the Beauty of Perfect Health

The perfect woman is the woman who has perfect health. Beauty is more than skin deep. Beauty is as deep as pure blood and a perfect digestion. Especially is female beauty dependent on the perfect health of the delicate female organism.

If you wish to have the beauty and attractiveness of perfect health, if you wish your eyes to sparkle, your complexion to resume its brilliancy, and your whole body to thrill with the glow of renewed vitality, take that famous woman's medicine,

Lydia E. Pinkham's Vegetable Compound

If you have headaches, backache, organic pains, painful or irregular periods, or any female trouble, begin with Lydia E. Pinkham's Vegetable Compound at once. It will save you needless suffering. It will restore your womanly beauty.

DEAR MRS. PINKHAM:—Lydia E. Pinkham's Vegetable Compound cured me of a severe and protracted case of female trouble. After the birth of my child this trouble began, but your Compound restored me to perfect health. My little girl is now six years old, and I am a perfectly well woman, and as happy as a mother could desire to be. I give the entire credit to Lydia E. Pinkham's Vegetable Compound.

MRS. S. R. BECKMAN, Cor. Murphy Ave. and Whitehall St., Atlanta, Ga.

No woman, were she a Venus de Milo, could continue beautiful with a dragging down female complaint. Mrs. Pinkham invites all sick women to write to her for advice. For twenty-five years, Mrs. Pinkham, daughter-in-Law of Lydia E. Pinkham, has under her direction, and since her decease, been advising sick women free of charge.

THE GREATEST EPOCH OF MARRIAGE

The first is the most crucial time.

If for the first time the greatest event in your married lives is about to occur, how expectant, how wrapt up in it you find yourselves.

You try to overlook, but in vain, that element of uncertainty and danger that you have been led to expect from the experience of those mothers and fathers who have struggled through this ordeal in ignorance of

Mother's Friend

what it is, and what it does.

If at this time every expectant man and wife might know of this greatest of boons, devised for the express purpose of alleviating and dispelling the suffering and consequent danger of child-birth, how quickly would all doubt and worry be dissipated.

Mother's Friend is an invaluable liniment for external massage, through whose potent agency countless mothers have been enabled to experience the joy of parturition for the first time without danger to themselves or their off-spring.

BASE BALL NEWS.

A game of punting and running was played at West Side park Thursday between two teams from the Jacksonville baseball team bunch. The game was for the purpose of trying the pitchers and practicing base running, and Lindley, Fox, Baker and Neal were given a chance to stretch their arms for four innings. All showed up well and it is hard for the fans to pick the winner.

The Hyphens play the first of three games at Bloomington, Ind., this afternoon with the state university of Indiana. The players taken by Berryhill were: Langdon, catcher; McCarthy, Neilds, Trautman and Raisor, pitchers; Berryhill, first; Thomas, second; Doyle, short; Armstrong, third; Walls, Weaver and Stephleton in the outfield.—Mattoon Morning Star.

Those three defeats of Cairo by Memphis was a good thing. Overconfidence has been replaced by hard work and "Pa" Farnbaker is again "boosting" the team.—Exchange.

CHANGE OF FIRM

Williamson Drug Store Will be Hereafter Known as Gilbert's Pharmacy.

M. E. Gilbert, of Mt. Vernon, and George W. Shaffer, of Princeton, Thursday purchased the Williamson drug store on West State street, and will hereafter conduct the place under the name of Gilbert's Pharmacy. Mr. Gilbert is already in charge and Mr. Shaffer, who is detained by business interests elsewhere, will be here within a few months.

Mr. Gilbert has had considerable experience in the drug business and is a competent man. He attended the state university and later graduated from the Northwestern university, and was employed for several years as a perscription clerk in Chicago, and more recently in Danville, from which place he came to this city. He expresses himself very much pleased with his surroundings, and considers Jacksonville the most beautiful city he has ever seen.

The Williamson drug store is one of the best known in the city, through its long career as a candidate for public favor. It was originally for many years conducted in the room adjoining the Ayers bank on the north, and when that institution found increased floor room necessary, removed to the present location.

John Gottrick, of Knoxville, who has been employed at the Williamson drug store for the past two months expects to leave the city soon to locate elsewhere.

FUNERALS

DAWSON.

The funeral of Walter K. Dawson was held at the home of his mother, Mrs. E. B. Smith, in Diamond Court, Thursday afternoon at 3 o'clock, Rev. William Mitchell officiating. A large number of sympathizing friends of the bereaved mother were in attendance. There were many beautiful floral tributes, which were in charge of Mrs. Fawcett, Mrs. J. G. Capps and Mrs. A. T. Capps.

At the conclusion of the services the remains were laid to rest in Diamond Grove cemetery. The bearers were Lyman Cassell, James Pyatt, Lee Bavington, Arthur Ellis, Earl Sutcliffe and M. O. Hook.

Only 2 days until Easter. Better hurry and order that suit from the Jacksonville Tailoring company. $15 and up.

W. R. C.

The Woman's Relief Corps will hold their regular meeting this (Friday) afternoon at 2:30 o'clock in their new hall on West Morgan street. All members who can are requested to come as early as 1 o'clock and quilt.

A candidate for office in Jasper county, Missouri, is named D. U. Givadam. We do not.

CITY WINS CASE

Against Richard Connors—Jury Assessed Fine of $100 and Costs—Appeal Will be Taken to Circuit Court.

The case against Richard Connors, charged with being an inmate of an assignation house, came up for hearing in 'Squire Arenz' court Thursday and the defendant was found guilty and assessed a fine of $100 and costs. The case was heard before a jury composed of J. P. Slaten, James Stout, John Hodgson, W. D. Scupham, J. Lutkemeyer and A. Ingram. City attorney W. M. Morrisey, assisted by Judge M. T. Layman, prosecuted the case, and W. N. Hairgrove defended. The case will be appealed to the circuit court.

The case was set for 10 o'clock Thursday morning, but it was almost noon before a jury was secured. After the noon recess the testimony of witnesses was heard. Merchant Policeman Jerry Sweeney, Night Captain Kennedy, Patrolman Trahey, Mrs. Poffenberger, Minnie McAdams and Nina Lewis were put on the stand. The jury was out about thirty minutes.

MATRIMONIAL

MAGILL-WATSON.

A quiet but very pretty home wedding was solemnized Wednesday evening at 7:30 o'clock at the home of Mr. and Mrs. Isaac Watson, near Woodson, when their daughter, Miss Anna, became the wife of Lloyd Magill, who resides near Jacksonville.

Only immediate relatives of the bride and groom and a few intimate friends of the bride witnessed the ceremony, which was preformed in a deep and impressive manner by the Rev. Dr. Miller, pastor of the Christian church of Woodson.

The wedding march from Lohengrin was softly played by Miss Alice Magill, sister of the groom, and the bride and groom entered unattended.

The bride was attired in a suit of brown silk and carried bride's roses.

Following the ceremony congratulations were extended, and all repaired to the dining room, where a bountiful supper was served, which Mrs. Watson and her daughters know well how to prepare.

The bride is the second eldest daughter of Mr. and Mrs. Isaac Watson, and enjoys the love and esteem of a large circle of friends in the neighborhood where she has always resided.

The groom is a prosperous farmer, and highly respected by all who know him.

Mr. and Mrs. Magill were the recipients of many handsome and useful presents.

Mr. and Mrs. Magill will be at home on a farm south of Arnold after May 1st.

THE BIRTH RECORD.

Twins, a boy and a girl, have appeared at the home of H. G. Marsh on North Fayette street. The son weighed nine pounds and the daughter seven and a half. All are doing well.

If you would lose that dull old headache,
And feel as lively as a flea,
Make haste to your druggist
And buy some Rocky Mountain Tea. Armstrongs' Drug Store.
